Dear Harold

Re: your letter of 6/24, while I have no objection to your referring to Lifton as my friend, the fact is we are barely that. We were in close contact from 1965-67, but very infrequently since then. He would call me every 2-3 years when he wanted a research item he thought I might have.

I have seen him on 3-4 occasions in the past 20 years, and had perhaps 6 phone conversations with him during that time (the last one, a couple of months ago -- he said nothing of the matters you wrote about).

While I hope his health is OK, I will not be contacting him to see if he needs the help you indicated he may require.

Best Regards.

Roy
